DESCRIPTION:

High-Quality professional 24V Dotless COB Strip Light.

High density chips and high CRI with a wider COB layer, our 24V COB strip provides uniform and attractive lighting with a 2 year warranty.

FEATURES:

- Very bright 15w/m options, 504 LEDs/m
- High colour accuracy with bright, rich, even light output, CRI 90
- Seamless/dotless light which gives excellent light quality
- Can be self-cut and add connectors, giving no waste and lower cost (5cm-10m)
- 24V for lower heat and longer lengths (up to 10 metres or 14m both ends)
- Large range of aluminium channels and diffusers
- 24V Transformer required
- Wide range of receivers and controllers available
- WiFi with SMART control on Smart devices
- Amazon Alexa and Google Home compatible (with Smart Controller)

SUITABLE FOR:

- Retail
- Homes
- Hotels
- Events & Shows
- Exhibitions
- Architectural features
- Signage
- Clubs
- Restaurants
