

ZI SENSOR - DOOR ZIGBEE CONTACT SENSOR

DESCRIPTION:

SMART ZigBee Magnetic Contact Sensor works with Zigbee Smart Gateway via WiFi. Small and versatile with no wiring required, can be located conveniently anywhere in a home, garage or office/business premises. With long battery life, easy installation and use. Consists of main unit and magnet. Can be used to detect the opening and closing status of windows, doors, sheds, cabinets etc. When the contact is broken, notification will be sent to your phone/SMART device and record to the Cloud. Indoor use only.
