INSTALLATION GUIDE

Product code: WL-24-WW-CCT

1 m Black Linear LED Wall Light – Built-in 24 V Mean Well Driver

240 V hard-wired product. The 24 V Mean Well LED driver is built into the light, so it connects straight to 240 V mains. It must be installed by a licensed electrician to AS/NZS 3000.

IN THE BOX

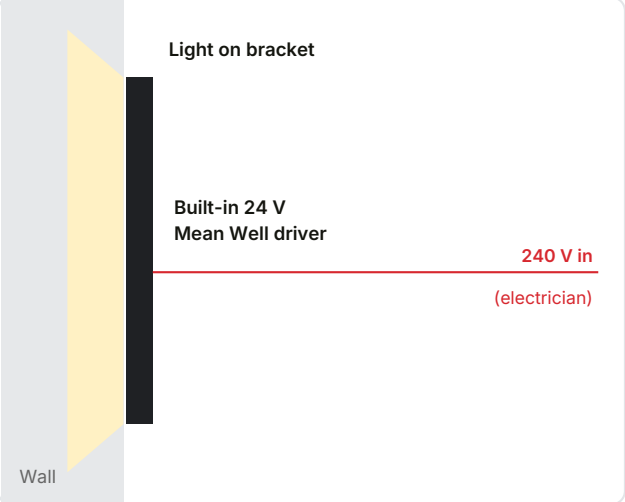

- 1 × linear wall light with built-in 24 V Mean Well driver
- Mounting bracket

YOU WILL NEED

- Drill and masonry bit
- Wall plugs and screws to suit the wall
- Spirit level
- Weatherproof (gel-filled) connectors or junction box for the mains joint
- Voltage tester

BEFORE YOU START

- Turn off the power at the switchboard and test it is dead.
- Electrician runs a 240 V cable to the light position. The cable can come out of the wall at any height behind the light.
- No separate 24 V power supply is needed.

STEP BY STEP

1. Hold the bracket on the wall, level it and mark the holes.
2. Drill, fit wall plugs and screw the bracket on.
3. Electrician joins the light's mains lead to the 240 V supply: active, neutral and earth (if fitted), in a weatherproof connector or junction box.
4. Tuck the joint into the wall cavity or junction box so it stays dry.
5. Fit the light to the bracket and tighten.
6. Turn the power on and check the light.

SETTINGS & USE

- Warm white (3000 K) or adjustable white versions are sold. Ask Greenhse how the colour is set on the adjustable-white version.

DO NOT

- Never connect a separate 24 V power supply – the driver is already built in.
- Don't leave the mains joint exposed to rain.
- Don't open the light – there are no user-serviceable parts.

CARE & TROUBLESHOOTING

- Wipe with a soft damp cloth. No solvents or pressure washers.
- If it won't light, turn the power off and call your electrician.

Installation: Greenhse recommends that every product is installed by a licensed electrician to AS/NZS 3000 and local rules. Any work on 240 V wiring must be done by a licensed electrician. Incorrect installation can be unsafe and may void the warranty. **Warranty:** 3 years limited – must be installed by a licensed electrician; excludes physical damage. Keep your invoice and the electrician's certificate of compliance. Questions? Call (08) 9297 2969 or visit greenhse.com.
