INSTALLATION GUIDE

Product code: DP40-CCT

40 W LED Display Light – Tricolour, Tilting

240 V hard-wired product: it must be installed by a licensed electrician to AS/NZS 3000.

IN THE BOX

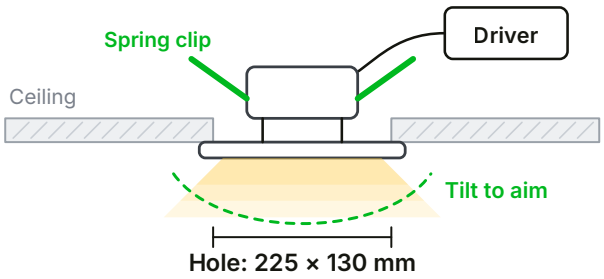

- 1 × 40 W display light with spring clips
- 1 × external LED driver, pre-connected

YOU WILL NEED

- Pencil and ruler
- Plasterboard saw or jigsaw
- Wire stripper
- Voltage tester
- Ladder

BEFORE YOU START

- Check there is room in the ceiling and no joist where the cut-out goes.
- Leave at least 25 mm clear above and around the light and driver – do not cover with insulation.
- Turn off the power at the switchboard and test it is dead.

STEP BY STEP

1. Mark a 225 × 130 mm rectangle on the ceiling and cut it out.
2. Set the colour switch: 3000 K, 4000 K or 5700 K.
3. Connect the driver's 240 V input to Active and Neutral, following the label on the driver. No earth is needed (double insulated, Class II).
4. Check the plug between the light and the driver is pushed fully together.
5. Put the driver through the hole and lay it flat on the ceiling, clear of insulation.
6. Hold back the spring clips, push the light up into the hole and let the clips go so it sits flush.
7. Tilt the head (0–65°) to aim at the shelf or wall.
8. Turn the power on and check it works.

SETTINGS & USE

- Colour switch: 3000 K warm, 4000 K natural, 5700 K bright white.
- Starts instantly, so it can be used with a motion sensor.

DO NOT

- Don't cover the light or driver with insulation (keep 25 mm clear).
- Don't use with a dimmer.
- Don't touch the light while it is on – it gets warm.

CARE & TROUBLESHOOTING

- Turn off and let it cool, then wipe the glass with a soft dry cloth.
- If it flickers or won't start, check the driver plug is fully pushed together.

Installation: Greenhse recommends that every product is installed by a licensed electrician to AS/NZS 3000 and local rules. Any work on 240 V wiring must be done by a licensed electrician. Incorrect installation can be unsafe and may void the warranty. **Warranty:** 3 years. Keep your invoice and the electrician's certificate of compliance. Questions? Call (08) 9297 2969 or visit greenhse.com.
