Warranty	3 years

Installation: licensed electrician required – see the installation guide. Keep your invoice for warranty.

IKUU Smart WiFi Outdoor PIR Sensor – White

ABOUT THIS PRODUCT

This IKUU smart sensor is a WiFi motion switch for outdoor lights that you set up and run from the IKUU app, with no hub needed. It detects movement across about 180° up to 12 m away and switches the connected lights on automatically. In the app you can adjust sensitivity, light level and on-time, choose On, Off, Auto or a 1-hour countdown, and get phone alerts or trigger other IKUU products. Rated IP65, it suits outdoor walls and eaves.

MORE DETAILS
