INSTALLATION GUIDE

Product code: PP2-SMART

Smart Wi-Fi Double Power Point – Crystal Glass

240 V hard-wired product: it must be installed by a licensed electrician to AS/NZS 3000.

IN THE BOX

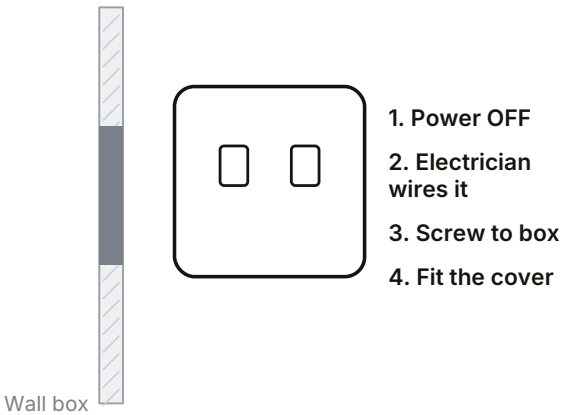

- 1 × smart double power point with glass cover fitted
- 1 × instruction sheet with app QR code

YOU WILL NEED

- Small flat screwdriver
- Phillips screwdriver
- Voltage tester
- Phone with the Smart Life app

BEFORE YOU START

- Check you have a 2.4 GHz Wi-Fi network with good signal at the wall.
- It fits in place of a standard double power point. Check there is room in the wall for the body (45 mm deep overall).
- Check the wall box has Active, Neutral and Earth wires.
- Turn off the power at the switchboard and test it is dead.

STEP BY STEP

1. Remove the old double power point from the wall.
2. Gently lever the glass panel off the body with a small flat screwdriver.
3. Connect Earth to PE, Neutral to N and Active to L. Tighten the screws firmly.
4. Fold the wires neatly into the wall box.
5. Fix the body to the wall with the two mounting screws.
6. Clip the glass panel back on until it sits flat.
7. Turn the power back on and check the indicator light comes on.
8. Add the power point to the Smart Life app (see settings).

SETTINGS & USE

- Download the Smart Life app by scanning the QR code on the instruction sheet.
- Touch and hold the touch button for about 3 seconds until the Wi-Fi light flashes fast.
- In the app tap '+', follow the steps and enter your 2.4 GHz Wi-Fi password.
- Use the app to turn the power on or off, and to set timers and schedules.

DO NOT

- Do not install or open it with the power on.
- Do not plug in more than 10 A (2400 W) in total.
- Do not use it outdoors or where it can get wet.
- Do not try to connect it to a 5 GHz Wi-Fi network.

CARE & TROUBLESHOOTING

- Wipe the glass with a soft, damp cloth. No harsh cleaners.
- New devices take about 1 minute to come online. If it stays offline, check the Wi-Fi password, move the router closer, or try adding it through a phone hotspot.
- Wi-Fi light blinks once a second: not on Wi-Fi. Blinks twice a second: on Wi-Fi but no internet.

Installation: Greenhse recommends that every product is installed by a licensed electrician to AS/NZS 3000 and local rules. Any work on 240 V wiring must be done by a licensed electrician. Incorrect installation can be unsafe and may void the warranty. **Warranty:** 2 years. Keep your invoice and the electrician's certificate of compliance. Questions? Call (08) 9297 2969 or visit greenhse.com.
