Solace 4-in-1 Bathroom Heater

Must be installed by a licensed electrician (AS/NZS 3000) – this is a 2152 W heater and needs a suitable circuit.

IN THE BOX

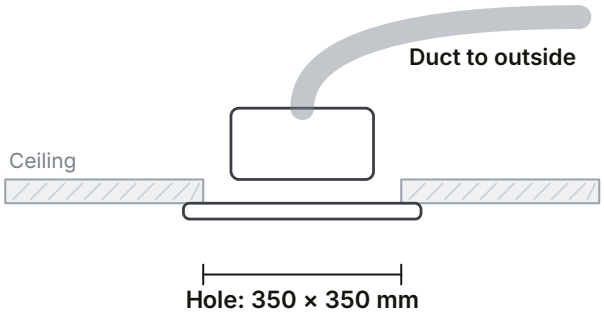

- 1 × Solace bathroom heater
- 1 × 5-gang wall control
- 1 × flexible duct, 1.5 m
- 1 × exterior grille

YOU WILL NEED

- Plaster saw
- Screwdriver
- Tape measure and pencil
- Duct clamps or duct tape

BEFORE YOU START

- Check there is at least 255 mm of space up to the roof, between the joists, clear of cables and pipes.
- It draws about 9 A at full power (2152 W) – your electrician checks the circuit can take it.
- It is IP20 – keep it out of reach of shower spray.
- Make sure fresh air can get into the room.

STEP BY STEP

1. Turn the power off at the switchboard.
2. Mark a 350 × 350 mm square hole and cut it with a plaster saw.
3. Your electrician runs the supply and the wall control cable and wires the unit as per the instruction sheet in the box.
4. Fit the 1.5 m duct to the ø100 mm side outlet and run it, as short and straight as you can, to the exterior grille on an outside wall. A longer duct and an exterior cowl are sold separately.
5. Lift the unit into the hole and secure it as shown in the instruction sheet.
6. Your electrician mounts and connects the 5-gang wall control.
7. Turn the power on and test the light, exhaust, both heat settings and breeze mode.

SETTINGS & USE

- Use the wall control to switch the light, exhaust, low heat (1000 W), high heat (2140 W) and fan-only breeze.
- If it overheats, the thermal switch cuts it off automatically.

DO NOT

- Don't cover the grille or block the air flow.
- Don't use it to dry clothes or towels.
- Don't spray water at the unit.

CARE & TROUBLESHOOTING

- Turn the power off and wipe the fascia with a soft dry cloth.
- Keep the duct and outside grille clear of dust and lint.

Installation: Greenhse recommends that every product is installed by a licensed electrician to AS/NZS 3000 and local rules. Any work on 240 V wiring must be done by a licensed electrician. Incorrect installation can be unsafe and may void the warranty.
Warranty: 3 years replacement. Keep your invoice and the electrician's certificate of compliance. Questions? Call (08) 9297 2969 or visit greenhse.com.
