Matt black	350 × 350 mm	1000 / 2140 W

Installation: licensed electrician required – see the installation guide. Keep your invoice for warranty.

Solace 4-in-1 Bathroom Heater

ABOUT THIS PRODUCT

The Solace is a slim 4-in-1 bathroom unit that heats, ventilates, lights and cools. A PTC fan heater warms the room on 1000 W or 2140 W, a 35 W ball-bearing exhaust fan removes steam, and a 12 W LED light gives clean cool white light. On warm days switch to fan-only breeze mode. A thermal safety switch cuts the heat if the unit overheats. It suits small to medium bathrooms and ensuites, comes in white or matt black, and includes the wall control, 1.5 m duct and outside grille.
